

Digital Video Recorder Quick Start Guide

Choose one of the following connection methods

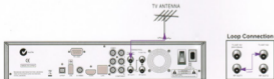

1. Connecting via HDMI

2. Connecting via S-Video and audio (white and red cables)

3. Connecting the TV antenna and loop cable to the DVR

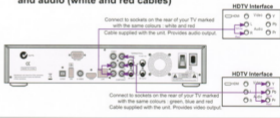

Ensure you connect the supplied loop cable from RF OUT1 to TV ANT IN2

4. Connecting via composite (yellow, white and red cables)

5. Connecting via Component (green, blue, red cables) and audio (white and red cables)

1. Plug in the power cord to the mains and switch the DVR ON at the rear panel.
2. Select the correct input on your TV (AV, Input key on TV remote).
3. You will receive a 'Menu Language' option on screen. Follow the prompts to complete the setup of your DVR.
